**Mason City Globe Gazette - Is more EPA delay on RFS a good sign? (Editorial) - 12/4/14 -**

While another delay by the Environmental Protection Agency in making a decision about the Renewable Fuel Standard creates frustrating uncertainty within the renewables industry, we hope it also signals a change in EPA position.

**FuelFix - Industry report: Production up, but methane emissions fall** - 12/4/14 - Methane emissions fell over a two-year period at major oil and gas fields across the U.S., according to a new report from the industry-funded Energy in Depth website. The report looked at EPA data on methane, a potent greenhouse gas that can leak from equipment into the atmosphere, and showed that even as oil and gas production rose between 2011 and 2013, methane emissions fell.
